

ACCVSED

Headline Tour 2027

Since their formation in 2021, ACCVSED has adhered to one principle: presenting themselves to the world authentically, without playing a role or sugarcoating their expressions. They channel their deepest traumas and fears into their music, creating a distinct and energetic blend of bold guitar riffs, unique vocals, and raw emotion. This combination shapes their sound into an unstoppable force.

Hailing from Wiesbaden, ACCVSED quickly realized that being a local band was not their ambition. They moved swiftly and made a significant impact on the music scene with their debut EP, 'House of Doubt,' released in December 2023. The breakthrough single 'Currents' led the 6-song EP, establishing a foundation for their constantly evolving musical style and garnering them worldwide attention. This success resulted in support shows and festival appearances throughout Germany and its surrounding countries.

Undeterred, ACCVSED set their sights on the next step, releasing their debut full length DEALERS OF DOOM via Arising Empire on 1st of August 2025. Showcasing their evolution from their most aggressive and unrelenting side, ACCVSED is set to release 10 songs fueled by anger, deepest fears and regrets and a fatalistic view on life as such. As they dive deeper into the abyss, each album track feels like a bitter pill, leaving the listener in a state of catharsis and hard to swallow truth about their very own take on life. With relentless energy and bold sound, breakdowns feeling like a hammer straight to the bone, raw vocals feeling like hands woven tightly around your neck - ACCVSED makes sure you will swallow every single one of it, without escape.

Welcome to DEALERS OF DOOM.
