

Amaranthe & Epica

Arcane Dimensions Tour 2026

Early 2026, metal powerhouse **AMARANTHE** and symphonic metal pioneers **EPICA** will unite on their European “*Arcane Dimensions Tour*”. With rotating co-headline slots, the trek will take them to 26 cities across 13 countries.

Formed in 2008, **AMARANTHE** have always walked their own path from the start.

With absurdly catchy and crushing pop-metal anthems and euphoric live performances all over the globe, their impact on the scene has been immediate. Their latest album “*The Catalyst*” once again delivered the sharpest, cutting edges of melodic metal and electronic rock and with no less than 3 vocalists on stage and over 1 billion accumulated streams and 500.000 sold units worldwide, **AMARANTHE** have long proven that they’re masters of their genre.

As this will be the first tour in Europe in support of their new album “*Aspiral*” (out April 11th), which has been labelled as “a masterclass in storytelling, grandeur, and timeless melodies”, you can expect **EPICA** to bring yet another mesmerizing new live show. Inspired by their multiple sold-out “*The Symphonic Synergy*” experiences and supporting METALLICA in 2023, Simone Simons & Co are eager to bring you the majestic trademarks that propelled them to the top of the metal world. Buckle up, cause this band’s on fire!

The combo will be joined by very special guest **CHARLOTTE WESSELS’ THE OBSESSION**. The Dutch singer-songwriter and former DELAIN vocalist just recently unleashed her first solo album “*The Obsession*” through Napalm Records, so whether you're a longtime follower or new to the music of all three acts, this tour is set to be a must-see event in the metal scene.

Tickets and VIP upgrades will go on sale on February 14th at 10:00 CET from epica.nl/tour and amaranthe.se/tour
