

# As Everything Unfolds

**UK/ Germany 2025**

**AS EVERYTHING UNFOLDS**

**SET IN FLOW (SINGLE)**

Speaking of 'SET IN FLOW', front woman Charlie Rolfe says, "this song was written directly from the perspective of a replicant/non-human, starting off at the beginning of the song being told who/what they are: a carbon copy of another. Eventually we follow them wanting to distance themselves from what they were, slowly becoming confident and comfortable in their uniqueness learning how to be human, even reflecting on their previous existence in anger, being kept in the dark about their unique consciousness."

Ignoring traditional genre boundaries with their distinctive sound, As Everything Unfolds have aspired to create a unique listening experience, combining a multitude of genres within the alternative realm and beyond. With over 30 million streams of their catalogue to date, their craft does not go unnoticed.

As Everything Unfolds have been nominated for three Heavy Music Awards, including Best Album in 2024, and have appeared at iconic European festivals including Download Festival, Graspop, Rock For People, Resurrection and Wacken. They have also toured extensively alongside bands including Electric Callboy, Enter Shikari, Skindred, Bury Tomorrow, Holding Absence and many more.

With new music and the signing to Century Media, 2025 promises to be a huge year for the band showcasing their new era across numerous tours and festivals.
