

Mad Caddies

Spring in Europe 2026

MAD CADDIES – GOOD VIBES, LOUD HORNS, ZERO RULES

Born on California's Central Coast and raised on punk rock and beach sunsets, Mad Caddies have been blending ska, punk, reggae and pure sunshine for over two decades—without ever sounding stuck in the past.

Their songs slide from laid-back grooves to full-throttle brass explosions, the kind that turn a sleepy crowd into a sweaty, dancing mess. Think punk edge, Caribbean sway and big sing-along hooks, all in one unruly package.

The Caddies have played pretty much everywhere—from tiny dive bars to massive European festivals—and they still roll with the same playful energy that started it all. No corporate polish. Just a bunch of friends chasing the perfect live moment, night after night.

Catch them on the road and you'll get it:

Mad Caddies don't just play shows—they throw parties that stick with you long after the horns fade.
