Miracle Of Sound Tour 2025

With over a billion completely grassroots cross platform streams, Miracle Of Sound is the project of Gavin Dunne, an independent producer/songwriter & singer from Ireland. The songs span a vast range of genres & styles, from dark folk to symphonic metal to sea shanties, cultivating a wide and varied audience over the last decade.

The project has had hundreds of chart appearances and a couple of ultra-viral hits, including the Viking history anthem Valhalla Calling, which Gavin wrote after playing Assassin's Creed Valhalla. The song has gone on to spawn countless cover versions, viral moments and remixes.

As he considers himself a little bit too boring to write about all the time, Gavin likes to celebrate great stories in his songs and many of them are inspired by the characters & tales in TV, Videogames, books & movies.

He has worked on cross promotion with various videogame industry companies including Ubisoft, Bioware, Owlcat/Games Workshop, EA and Bethesda for titles such as Mass Effect, Assassin's Creed, Warhammer 40k, Wasteland 2 and Watch Dogs.

Miracle Of Sound songs are loved for their addictive, catchy hooks, strong emotional punch and a ridiculously diverse range of genres, styles & song structures while always maintaining the MOS 'feel'.

A studio project for the last decade, Miracle Of Sound will finally take to the live circuit in 2025 with a full live band and some very special, unique renditions of all the fan favorite songs.
