

Update 10.01.2022, 14h:

Die Show wurde ersatzlos abgesagt - Tickets bitte dort zurück geben, wo sie gekauft wurden, Danke!

Statement from artist:

It is with extreme sadness that we have to announce the cancellation of most of our European February dates.

The Gothenburg and Stockholm dates are still on!

We really tried to make the tour happen but as you know, it is just impossible at the moment and we must surrender.

To spare you and us a third postponement of this tour, we decided to cancel so you can return your tickets at the point of purchase. Instead we will start new and hopefully return to you with a brand new set of EU dates in the not too distant future.
