## **Go Go Berlin**

Go Go Berlin is a Danish rock trio. Since their establishment in 2010, they've released their 70's rock inspired debut record *New Gold* (2013), including the major hit "Castles Made of Sand", their sophomore album *Electric Lives* (2015) and their more electronic third record *The Ocean* (2019). Last year, they released the ep's *Replica* and *Lyfe*.

Go Go Berlin has played concerts at major Danish festivals like Northside and Smukfest; they have toured all over Europe, US and Asia; and their music is featured on radio stations in many countries across the world, including Mexico, Australia, US and UK.

Originally, Go Go Berlin was a five-person party, but now the group consists of Christian Vium, Christoffer Østergaard and Anders Søndergaard. 2021 marks a line of new releases, musically showing the band's development from their 2019/2020-records. Simultaneously, the releases are to present a re-discovery of the original Go Go Berlin-DNA, as the trio explores their ongoing transformation as a rock group. All music is written and produced by the members of the band.
