

Carson Coma is Hungary's #1 guitar-based rock band, with more than 80 million Spotify streams, and sold out concerts in the biggest venues and festivals of the country. Their new album IV, debuted last June, had a powerful impact on both the audience and critics due the album's post-punk melodies and strong, politically conscious lyrics.

The band celebrated their 5th birthday in MVM Dome in April, where more than 10,000 people enjoyed the most extraordinary and longest show in 360°.
